To The Justice Dpartment,

I purchased windows95 with the IE4.0 together several years ago and did not mind a bit. Should a Jury have any say so about this, the Law or laws used to incriminate this Nations leading contributor to our economy would be nullified. I am aware of Mr. Gates and what he did but many othe free downloads are available and were then. It is also fact that some of Microsofts competitors held contracts with the US and installed faulty servers and software. Clinton in my opinion is who we should be prosecuting for his treasonous acts of selling some of our most Secret Information to China while prosecuting Mr. Gates. These facts could only be denied by LIARS!!!!!!!!
